[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO SEPT. 9.

WASHINGTON CITY.

National Affairs.

WASHINGTON, Sept. 7.—Nothing positively is known as to the rumored recall of Minister Catacazy, while it is said that Fish has not asked for his displacement, and there is no doubt he would be gratified by the substitution of another person as the Russian representative.

Much progress has been made at the Department of State in arranging claims under the Treaty of Washington. The British agent in this city has not only received a large number of claims heretofore filed in England, but claims from British subjects in this country.

Opinion by the Attorney General.

WASHINGTON, Sept. 8.—The opinion of Attorney General Akerman, published on the question presented by the Civil Service Committee, as to the constitutional power of Congress to pass a law compelling the appointment of persons to civil offices who should receive certificates of qualification from the Board of Examiners, as proposed by the Civil Service Reform Bill, or as to whether the words "discretionary selection" were not a necessary incident of the Executive appointing power. The opinion is a long document, and the Attorney General arrives at the conclusion that Congress can limit the Executive choice by prescribing that no one be appointed who shall not have passed an examination, but can go no further than that. Congress cannot require that a successful competitor shall be appointed in any case, because that would be to deprive the President of all discretionary power. This cannot be taken away from him, nor be entrusted to the Board of Examiners.

The Turkish Minister.

WASHINGTON, Sept. 8.—Blasque Bey, Turkish Minister, has returned with his family to Washington, after an absence of seventeen months in Turkey.

EASTERN STATES.

An Interview with the President.

NEW YORK, Sept. 9.—The President informed an interviewer of the *Herald*, at Long Branch, that there will be no immediate action upon Senator Scott's letter, touching the alleged Ku Klux outrages in South Carolina. Among the reports which the President has received, contradicting the report of Scott, is one from Spartansburg county, signed by twenty-six citizens, including the U. S. Commissioner, U. S. Assessor, Probate Judge and Sheriff, denying that any of the alleged acts of violence were perpetrated by the Ku Klux.

The President has expressed approval of the general features of the opinion of Attorney General Akerman upon the Civil Service question.

A delegation of the Southern Republican Press Association, appointed by a recent Convention at Washington, waited on the President at Long Branch, yesterday, and made complaint that the Republican press of the South; that the latter was left almost entirely in the background, as to Government patronage. Other abuses in the interest of the Republicans were presented. The President promised to give the matter his attention.

The Tammany Thieves.

NEW YORK, Sept. 8.—The excitement in regard to the suit commenced against the city officials increases to-day. There is a good deal of speculation as to whether Judge Barnard will make the injunction perpetual, when the case is up for argument on Monday. There is a probability that a strong influence will be brought to bear upon the Judge, and it is believed he will remain firm against argument, and render a decision in accordance with what seems to be the popular will.

The object of the visit of Jones and O'Brien to Long Branch was to represent the municipal government in such a state as to lay the foundation for calling upon the General Government to interfere and appoint a Provisional Mayor. Mayor Hall asserts his intention to fill out his present term of office, and run again, and that the people can obtain redress from his administration.

New Jersey Politics.

TRENTON, Sept. 7.—In the Republican Convention to-day, Cornelius Walsh was nominated for Governor.

A Mother Murders her Children.

TOLEDO, Sept. 7.—A horrible triple murder was committed yesterday near Wabash. Mrs. Margaret Pixley, a widow, deliberately killed her three children. The youngest, a baby, she took by the feet and beat its brains out. The second, aged four, ran from her, but she caught it and cut its throat with a butcher knife, and the eldest, aged ten, she killed in the same way. She was arrested and lodged in jail. She appeared perfectly sane, and says she killed the children to get rid of them.

New York News.

NEW YORK, Sept. 7.—The boulevard workmen of this city have not been paid for five weeks. A riot is imminent.

Controller Connolly to-day ordered the public markets of the city to be cleansed and disinfected daily.

The contract between the P. M. S. S. Co. and the Union Pacific railroad, was formally ratified last evening in Boston. Details not yet published. It is understood the rate of through fare by the Union Pacific has been increased materially.

NEW YORK, Sept. 8.—The friends of Richard F. Colburn gave him a dinner at the Astor House, to congratulate him on the honorable acquittal of his wife in the late Buffenburger trial. Representatives of the leading journals were present. The congratulations to Colburn were most cordial, and the sincerest sympathy expressed for Mr. and Mrs. Colburn in their late troubles.

Honors to Gov. Booth at Terra Haute, Indiana.

TERRE HAUTE, Sept. 8.—This city being the former home of Newton Booth, there is great rejoicing among his old friends and neighbors over the news of his success in California. Last night many citizens called upon his parents to congratulate them.

Racing.

MILWAUKEE, Sept. 7.—The race course over which Goldsmith Maid yesterday trotted in 2:17, was measured to-day and found to be sixty feet over a mile.

LEXINGTON, Sept. 8.—The races which begin here Monday, promise to be the finest ever seen here. Geo. Buford and John Hatcher's stables have both arrived, with many other noted fliers. Seventy-five horses are now in the stables. Longfellow and Emperor are both in fine condition, the former having fully recovered from his trouble at Saratoga.

Outrage on American Vessels.

NEW YORK, Sept. 7.—A Galveston special says the Captain of the bark *Brothers* was recently attacked by Mexicans off Santa Anna bar. He fought with what few arms the vessel had, and says he killed eight, but was finally compelled to take to boats. The *Harvest Home* was more fortunate. The Captain determined not to yield so long as he had a finger left, and accordingly prepared for a stubborn defense. As the Mexicans pulled alongside, he opened a heavy fire, although the Mexicans succeeded in gaining the deck once or twice. He was at compelled to take to the boats. Loss, 10 killed.

CANADA.

Cause of Renforth's Death.

ST. JOHNS, N. B., Sept. 8.—Renforth's inquest was concluded last evening. The result of the post mortem examination showed that Renforth's lungs were engorged with blood and that death was caused by over exertion, combined with great excitement. Dr. Jackson, of Boston, testified that no traces of arsenic could be found in the stomach. The verdict of the jury was that Renforth came to his death by congestion of the lungs, caused by over exertion.

BY ATLANTIC CABLE

Cholera in Russia Abating.

LONDON, Sept. 7.—The cholera epidemic in the Baltic Provinces of Russia begins to abate. At Konigsburg, where the disease has been most violent, there were 40 new cases and 28 deaths on the 4th. On the 5th there were only 17 new cases and 15 deaths. There has been but one fatal case at Stettin, and at Dantzic the disease has been pronounced sporadic.

The few cases of cholera that have occurred at Paris and in this city are now said to be of a different type from the Asiatic scourge.

The anxiety felt at Berlin and through Germany is decreasing, and it is confidently hoped that the precautions taken, aided by the approach of cold weather, will stay the progress of the epidemic.

The Infallibility Dogma.

BERLIN, Sept. 6.—The North German Bishops have just commenced a series of secret conferences at Fouldo, to consider the dogma of infallibility. At these meetings it has been decided to omit the customary cathedral morning high mass. From their earnest manner since they have commenced to conduct their sittings, it is evident they mean business.

British Commissioner to America.

LONDON, Sept. 7.—Recorder Guernsey, who will soon sail for the United States as Commissioner under the treaty of Washington, replied to-day to an address presented to him by the people of Southampton. He remarked that he hailed the treaty with satisfaction and delight. He was not going to Washington as the advocate of British, or the opponent of American claims alike. The question of amount was unimportant. Better pay any sum than raise even a suspicion of unfairness. Guernsey paid a compliment to his colleagues on the Commission. He said he was happy to state that their labors would be brought to a satisfactory end.

French Affairs.

PARIS, Sept. 7.—Thiers, in replying to-day to the congratulations of the municipality of Versailles on the extension of his power, hoped that the future of France would be fortunate, and that simultaneously the moral and military recovery of the country in its present form of government would soon become a peaceful and glorious reality.

There are still persistent rumors of coolness between the French and Italian Governments.

The trial of Rossel resulted in a sentence of death.

SALZBURG, Sept. 7.—The conference between Emperors William and Francis Joseph, yesterday, at this place, was of the most friendly character. The people availed themselves of the event to have a gala day, and a grand dinner was given. There is also a brilliant illumination of the surrounding hills. Emperor William leaves to-morrow for Munich.

Religious Controversy in Germany.

MUNICH, Sept. 7.—Count Atticis, Catholic Representative from Bavaria to Rome, in whom the Catholic party in Germany have looked as the champion of their hatred in behalf of the Holy See, has been replaced by Count Frautlmansoff, who is a partisan of Dollinger. This nomination produces a feeling of deep discontent in the Vatican. The new church party accept it as a signal of the triumph of their principles. Frautlmansoff has always been hostile to France, especially during Imperial rule.

The French Assembly.

VERSAILLES, Sept. 8.—The excited debate on Ragnat's bill closed this evening. The bill had assumed the form of a compromise, providing for the continuance of the Assembly at Versailles, and the removal of the Ministerial Department to Paris; but the Government opposed the transfer of the Ministry, and it was rejected. The bill, as finally amended, was adopted. Paris forts and three departments will be evacuated immediately. The department of Oise will be occupied until the third half milliard is paid.

CALIFORNIA.

The Election—Splendid Republican Triumph.

SAN FRANCISCO, Sept. 9.—City returns are complete, except the second precinct of the Tenth Ward, and give Booth 2,500 and Alvord over 2,000 majority. Badlam is defeated by Rosener by about 200. Hynes has about 1,000 plurality, for Recorder. Making allowance for nineteen counties yet unheard from, on the basis of the last Presidential vote, Booth will have 6,500 majority in the State.

Delayed Dispatches—Details of the Election.

SAN FRANCISCO, Sept. 7.—No full returns in from any ward. Enough, however, is known to show that the whole Republican ticket is largely ahead in San Francisco, and every man on the Taxpayers' ticket is elected, with the possible exception of Badlam for Assessor, between whom and Rosener it is very close. Badlam's friends are confident he is elected. In the Fourth Ward Tim McCarthy, Independent candidate, is certainly elected Supervisor. The lowest estimate of Booth's majority in the city is now 1200, and it may reach 2,000. Booth's election in the State, by at least 4,000 majority, is now conceded by the Democrats. In the Ninth Ward Booth had 336 majority, and in the first precinct of the Eleventh, which usually is strongly Democratic, the straight tickets ran: Booth, 304; Haight, 305. The scratched tickets will largely increase Booth's majority. It will be late to-morrow before the official figures can be given. Haight appears to have been traded off for every other candidate on the Democratic ticket, down to Justice of the Peace. The total vote of the city foots up, as given last night, 25,112.

The only Independent candidate elected is T. McCarthy, Supervisor in the Fourth Ward. The ring is hopelessly broken, so that his election is of no importance. In the First Congressional District, Archer and Houghton have run very close for Congress, and the official returns will be required to decide who is elected. The Republicans are wild with enthusiasm, the result far exceeding their most sanguine expectations. They will hold a grand jollification to-morrow night, when Booth is expected to be in the city.

This evening, as Supervisor Badlam, Assessor elect, was eating dinner in a restaurant, a gambler with whom he had no personal acquaintance, walked in and called for a glass of ale, and going up to Badlam deliberately threw it in his face. The greatest excitement prevailed in an instant, but the gambler's friends took him away to prevent his getting whipped by half a dozen persons who witnessed the outrage.

It is rumored that a recount will be demanded in the case of Badlam and Rosener, on the ground that enough ballots with Badlam's name printed thereon, but erased and written over fraudulently with nitrate of silver, were cast to have elected him, according to the plain and evident intent of the voters.

Booth in San Francisco.

SAN FRANCISCO, Sept. 8.—On the arrival of the Vallejo boat, at 8 o'clock, Hon. Newton Booth, Governor elect, was met at the wharf by a large concourse of his personal and political friends, who escorted him to a carriage prepared especially for the occasion, and the line was formed at once for the Grand Hotel. As the procession passed up Montgomery street it presented a brilliant spectacle. There were nearly one hundred citizens on horseback and a large number of carriages. The horsemen, carrying transparences and torches, rode in double line on either side of the carriages, in which was sitting the guest of the evening. Cheers loud and long greeted the procession at different points on the route, the sidewalks being crowded with enthusiastic Republicans, and many ladies occupied windows along the street, waving their handkerchiefs as the procession passed. On arrival at the hotel the crowd, numbering several thousand, called loudly for the future Governor, and he appeared on the balcony and made a brief but hearty response, thanking them for their enthusiastic greeting, congratulating them on the triumph of the Republican cause. Rousing cheers were given, and he then re-entered the hotel, and a general hand-shaking and exchange of congratulations commenced and is still going on.

Miscellaneous News from San Francisco.

SAN FRANCISCO, Sept. 9.—The bark *Rival*, advertised for Portland, will take a quantity of railroad material for the O. & C. Railroad.

Twelve steamers sail from San Francisco next week for various ports.

Fifty-one deaths have occurred this week in the city.

The Fair at the Pavilion is crowded to-night to see premiums awarded at 9 o'clock. Total receipts, $60,000.

The remains of Dr. Richard Arbe, naval agent of this port, under Pierce's administration, and brother-in-law of Admiral Farragut, were buried to-day. There was a large attendance of leading citizens.

Gov. Booth also, in a brief speech last night, earnestly exhorted the Republicans not to be too much elated by their success on Wednesday, and allow the Judicial and school election to go by default.

Suicide of Mrs. Alpheus Bull.

SAN FRANCISCO, Sept. 7.—The suicide of Mrs. Alpheus Bull, by hanging, to-day, excites much remark. She was known by everybody as a lady of superior intelligence in disposition, a Christian from deep conviction, and peculiarly happy in her domestic relations. She had not been very seriously ill, but confined to her house for a few weeks. Her sudden attack of insanity was, beyond question, attributable to physical cause.

OREGON.

There are 175 children in the Dalles public school.

The valuation of property this year in Wasco county is $1,141,532.

Asher Marks of Douglas county, has brought from California thirty head of fine sheep.

W. W. Weaver of Myrtle creek, Douglas county, has threshed 824 bushels of wheat from 17½ bushels sown.

The Roseburg *Ensign* reports that no town in Oregon in proportion to the size, is improving so rapidly as Oakland.

Following are statistics of the Roseburg Land Office for August: Thirty-seven homesteads entered, containing 5,000 acres. Lands entered with cash, 2,200 acres. Pre-emption filings, 5, 840. Total, 11,040.

Since the fire at the Dalles, owing partly to the demand for houses and partly to the demand for lumber, real estate has gone up about thirty or thirty-five per cent in that place, and rents in about the same ratio.

The Statesman learns that on Saturday morning, two boys, Otto Monroe and Charlie Mc. Phillips, residing near Amity, started out with their guns to shoot some birds. They had not proceeded far, when by some means, the gun for the hands of the former was discharged, taking effect in the latter's head just behind the ear causing death instantly. The two boys were aged and the years of age.

The Roseburg paper says: The grading on the railroad has been completed to Pass Creek canyon, and that the ties are distributed a considerable distance above Eugene. The main forces of the Company are at work in Pass creek and the Smith Hill, beyond Oakland. The work is being pushed ahead with great energy, and during all hours of the night the mountains were made to echo with the sound of continuous blasting and falling of trees.

From the Yamhill paper: A singular evidence of Oregon's antiquity was recently taken out of the ground at Tillamook Head. It appears that some men were grading a road bed, and when 25 feet below the surface, one of them exhumed a copper bowl a half inch deep, two and a half inches wide by three eighths of an inch thick. The curiosity was sent to O. Roop, of Dayton, who has it in his museum. Here is another mystery for the oldest inhabitant to explain. The knife is made of the best copper, and the work is done in a superior style.

PERSONAL NOTES.

J. B. Nelson, of Wasco county, member of the Legislature, was thrown from a horse last week and very seriously injured.

The Washington correspondent of the *Eugene Journal* writes (Aug. 24): Mrs. Williams is at the National Hotel, and the attending physician thinks her health is improving.

A rural Virginian while in Richmond the other day, demanded of his acquaintance "What right the statue of Henry Clay had in the "square?" and "What business had the Legislator letitin' it be put there?" What had Henry Clay ever done, that a statue of him should be made? He wasn't a Democrat.

Victor Hugo, having hunted Napoleon and the monarchs of Europe generally, is now about to salute the French people in a work entitled *L'Année Terrible*, in which the work of the French army with the Germans, and its crowning struggle with the Communists, are to be mercilessly ridiculed and exposed.

We are sorry that Major Adams has been superseded in the office of Register at Vancouver. He is accurate, and perhaps full, of faults, but we have heard of no complaint against him for want of honesty, or capacity in office. The man who stood at the perilous edge of battle, faced and took wounds without flinching, should not be hustled off without cause in a back seat.

POLITICAL NOTES.

B. C. Cook, Republican member of Congress from the Sixth District of Illinois, has tendered his resignation, and his successor will be elected in November.

The Chicago *Post* intimates that the Wisconsin Democrats have caught the Illinois Democrats napping—that the latter wanted to make James R. Doolittle, of Chicago, their candidate for Congressman at large, and the former have taken him back to his old home and put him up for Governor.

Of the 38,555,983 population of the United States, it is now reported from the Census Bureau only 1,063,994 are black, copper-colored and yellow. Of these only 63,254 are Chinese, so that the prospect of the proud Caucasian race being overrun by Mongolians or negroes is very much lessened. The other two "demagogues," the Governor, Banquo or the "stranger."

Some of the North Carolina Democrats engaged that the poison harvested down the Constitutional Convention, are swilling upon the members of the Legislature, which is controlled by the party, to tax the people until they will vote a convention. Their plan is early in the season to levy a tax on the people adequate to pay the interest upon the debt of the State (several millions in addition), then suspend its collection, pass another Convention act, and demand that the people shall accept taxation or convention.

Andrew Johnson has again been interviewed. He was gratified at the result of the Kentucky election, and denounced the New Departure saying "it won't be infinitely better that Radicalism should still riot in plunder and power through another four years than that the Democratic party should triumph by base abandonment of honesty and principle." Notwithstanding Mr. Johnson's well known theory of the nation's obligations to the capitalists who loaned her money to carry on the war, the currency schemes of the Ohio Democracy meet with no favor from him. "The reign of paper," he said, "to any country, and under any form of Government, has ever been the reign of vice, of baseless, crazed speculation, and of the wide spread immorality which engenders order and good government and solid prosperity unattainable."

The Democratic National Committee have issued the following circular: "This committee have had their attention called to an anonymous pamphlet, entitled 'Concession, or How the Rebel Cause May be Gained,' now being circulated over the United States as though emanating from Democratic sources. The committee are authorized to denounce the same as a fraud and the sentiment therein expressed as antagonistic to the principles and purposes of the Democratic party. Further, this committee are of the unanimous opinion that the same has emanated from Radical sources, with the intention to deceive the people and prejudice them against the only party which can reform the administration of the Government and bring about a return to honesty and constitutional law." What a party, which finds it necessary to disclaim a purpose to revive the rebellion!

THE TERRITORIES.

A man named John Pierce shot and killed another named Wm. Miller at Rocky Bar, Idaho, a few days ago. The difficulty was about a mining claim.

The Vancouver Fair opens on the 19th. The steamer *Vancouver* will reduce fare to half price to and from Portland, and take over all articles designed for exhibition free.

A few days ago in Prickly Pear Valley, Montana, two men named Anderson and Pettibone had a shooting affray about a horse. Both were wounded, it is believed, mortally.

The late editor of the *Independent*, Dr. Edward Eggleston, has resumed the editorial charge of *Hearth and Home*, a post where such a man as he was much needed, and where he will, doubtless, render admirable service.

The Vancouver *Register* has it settled that the man who exactly fills the bill for Republican candidate for Delegate to Congress next year. It says: "His ability is fair. His war record is unsurpassed. We withhold his name for the present." Majesty, perhaps?

From the Walla Walla *Statesman* of Friday: The Conpany, this week, sunk down a gang of men, timbered the shaft to the depth of 80 feet, and did the necessary drifting for the present, accompanying the workmen that are to be engaged in clearing and grubbing on the line during the present fall and winter.

The Scranton *Republican* says: The only old wigwam left remaining in the county is at Plymouth, on Jail Hill—the old elm tree stand[s] on the north side of the road. In revolutionary times it was the sign post, the court house, the auction mart, the forum, and the meeting house. It will be the whipping post.

Speedy Relief and Cure for
CHRONIC DISEASES.

DR. ABORN
Is now prepared to treat all forms of Chronic and Obstinate Diseases, Rheumatism, Neuralgia, Sciatica, Diseases of the Kidneys, Bladder and Urinary Organs, Dyspepsia, Liver Complaint, Scrofula, Consumption, Bronchitis, Asthma, and all Affections of the Throat and Lungs, Deafness, Discharges from the Ears, Nervousness in all its forms, Female Diseases, and all Chronic Diseases of a private nature, requiring skill and experience in their treatment

The Daily Oregonian.

MONDAY MORNING, SEPT. 11, 1871.

Republican Triumph in California.

The result of the California election has a much wider significance than the simple fact of the success of the Republican ticket there. It is the opening gun of a campaign that will continue almost without cessation throughout the United States till November of next year. For the Republicans it is truly an auspicious beginning. It shows that the present Administration not only has the confidence of the country, but that it is steadily gaining strength. How puerile and contemptible appear the accusations brought against the Republican party by the opposition, when we have such an expression of popular confidence in that party as is evinced by this grand result in California.

The significance of this election cannot be overwhelming. Democrats, let it be remembered, four years ago gave nearly 10,000 Democratic majority. This was a severe blow to Republicans all over the Union, and many feared it was a presage of general defeat. It was just at the opening of the Presidential campaign; Republican measures were on trial, and not a few even of the most resolute Republicans had misgivings about the result of the great struggle. By their great triumph in California, Democrats all over the Union were mightily elated, and it was their boast that in the Presidential election their success would be overwhelming.

Now, however, the aspects are so changed that it may almost be doubted whether the Democrats will be in the field at all in the Presidential contest of next year. A show of opposition will, of course, be made, but it is questionable whether their chances for success will be worth estimating. California changed from nearly 10,000 Democratic to 6,000 Republican. North Carolina has just given a Republican majority. Montana Territory for the first time in its history has done likewise. The Republican strength in Kentucky has increased enormously—far beyond the addition of strength brought by the colored vote. These facts point one way. They indicate the unbounded strength of the Republican party; they show that the country is satisfied with the measures of that party and intends to continue them. They prove, too, the strength of the Administration with the people; for, were the Administration unpopular, the fact would inevitably manifest itself in the elections.

The Democratic party has nothing whatever to present to the country. It has no creed, no policy to know, and its real sentiments are so odious that it dares not proclaim them. It shuffles, equivocates, evades; it tries "new departures," looks out of them, and don't know what next to do. It has no idea what its platform will be next year, and is in a hopeless state of uncertainty and demoralization.

The victory in California, besides its general significance as showing the state of public sentiment toward the Republican party and the National Administration, has special significance for the Pacific coast. It assures every one of these States for the Republican party in the election next year. The very momentum of this great triumph in California will carry Oregon in the same direction, just as the Democratic triumph in California in 1867 contributed to make the Democratic majority in our State in the following year. Besides, we shall have the aid of many new voters in this State who have been arriving during the past year and who are still coming. With candidates who will command the confidence of the people, and with energetic, harmonious action among Republicans, there should be no doubt whatever of a Republican triumph in Oregon.

One Gem—A Warning to the Other.

By the defeat of Ex-Lt.-Gov. Haight one of the most persistent demagogues that ever disgusted the sensible portion of the population of the Pacific States is finally put out of the way. He and Gov. Grover of this State are a matched pair. Both of them are cold-blooded, proud and aristocratic in all their instincts and feelings; but with calculating insincerity they professed great love for the "laboring masses" in order to get votes,—though they have not and never had one sympathetic emotion for the devotees of labor. They have gone over their respective States bawling about the Chinese, and plying the very lowest arts of the low demagogue, they have appealed to the proletaires to accept them as their champions, vote them into power, rebuke the "Radical oppressors of labor," and inaugurate the laborers' millennium. In all seriousness the efforts of these two Governors on this subject have not been a single degree above the harangues of Jack Cade, of whom alone they are worthy to be lineal political descendents and successors. In one respect Jack Cade was less culpable and less degrading than they, for he was an illiterate clown of whom the like might be expected, while they are men who know better but who are willing to stoop to this low business in the hope of obtaining political advancement. California has disposed of one of these demagogues; Oregon will do likewise with the other. Grover seems to have taken his low tricks from Haight, and to have looked up to him as a counsellor and guide. That prop is gone, and Grover will be compelled now to fall back wholly on Bill Watkinds.

A city subscriber writes: "I have been reading the *Herald* for a few weeks and have had a surfeit of the linked nonsense long drawn out, with which its editorial columns are filled. My object in writing this note is to say that in the opinion of not a few of your readers you might better employ your space in the OREGONIAN than in confuting statements in the *Herald* which are unworthy of notice, and which, in point of intellectual imbecility were certainly never equalled in Oregon. Devote less space to the *Herald*; it is writing itself downfast enough." We admit that there seems to be ground for our correspondent's complaint against us, but he should remember that the *Herald* is put forward as the principal organ of its party, and it is necessary sometimes to meet such adversaries as appear to champion the cause of our political opponents, feeble as those so-called champions are.

It seems that the Germans of San Francisco must have voted Republican *en masse*. It was believed before the election that they would do so. There is a general "departure" of the Germans throughout the United States from the Democratic party. The reasons for this are good and numerous, and so well known that they need not be rehearsed.

We see no sign in the editorial columns of the *Herald* that that paper has learned of the result of the California election. When the line was down last week it "guessed" that the news would be "good" when it did come. And so it is. But the *Herald* hasn't found it out.

Progress in Population.

The following exhibit shows the result of each census of the United States:

In 1790	3,929,827	In 1830	12,866,020
In 1800	5,305,932	In 1840	17,063,353
In 1810	7,239,814	In 1850	23,191,876
In 1820	9,638,690	In 1860	31,443,321
In 1870	38,558,371		

From 1790 to 1800 each census showed an increase in ten years of 30 to 36 per cent. From 1800 to 1810 the increase was but 22 per cent. "The explanation," says the New York *Tribune*, "is not far to seek. Our desperate and bloody civil war is accountable for far more than the deaths in battle and hospital, though these (on both sides) aggregated at least half a million. Tens of thousands have died out of service of wounds received or diseases contracted while in arms for the Union or the Confederacy; some skulked out of the country to avoid conscription; many were withheld from migrating into it by the presence of war; and the premature deaths of at least half a million of our young men have greatly diminished marriages and births throughout the last decade. But for the war of secession, our aggregate population by the Ninth Census would not have fallen short of forty millions. The Hon. J. G. C. Kennedy, Superintendent of the Eighth Census, estimated in 1862, that it would be 42,328,432."

No sooner do we hunt the *Herald* from one misstatement than it attempts to take refuge in another. It asserted two or three days ago that a Republican Congressman had declared that "Radical thefts in one year footed up $60,000,000." We challenged it to produce the record for this. It could not do so, but makes the equally unfounded assertion that the Secretary of the Treasury has given the "names of three hundred defaulters to the Government, whose aggregate defalcations foot up twenty millions of dollars." "Here," exclaims the *Herald*, "is stealing that amounts to something." Never yet was the *Herald* known to state anything correctly. The Secretary of the Treasury did not say that these three hundred persons were all defaulters. Nor did he state that the defalcations amounted to twenty millions. He said there were unadjusted accounts amounting to that sum. Since then he has officially stated that most of these accounts have been adjusted and the defalcations in the aggregate are found to amount to about two and a half millions. And what is more significant than all, two thirds of this missing amount was embezzled by Democratic office-holders appointed by President Johnson. Now let the *Herald* invent another story. At the same time, however, let the result of the California election advise it that the people are not uninformed, and do not believe statements made by papers of its class.

Now for execrations of the "new departure!" There will be a general chorus of them. All the Democratic journals on the Pacific coast will attribute the California defeat to the adoption of this expedient. It will be characterized as the fatal step which led to the crushing overthrow. Now also for a lively quarrel in the ranks of the faithful as to what shall be done next.

All the Democratic papers of Oregon in their issues of Saturday, claimed a Democratic victory in California. The *Herald* had it that Haight's majority was 5,000. The Roseburg *Plaindealer*, at the other end of the State took courage from the returns received, and regarded Haight's election as "probable." What a deal of "explaining" there'll be next Saturday.

"John Phœnix" Over Again.

A good newspaper story is being told of the Colorado *Herald*. The editor of the *Herald* had occasion to leave town for a few days, and intrusted his valuable organ to the care of an ambitious youth who was a novice in journalism. His instructions on leaving were modeled after those of the elder Bennett in similar emergencies. "Always keep before your mind the fact that the object of this paper is to extend its circulation," he said, "and whenever you see a chance to insert a puff of the *Herald* in any notice you make, pile it on as thick as you can. Keep the people stirred up all the time, you understand, so that they will believe the *Herald* is the greatest sheet in the United States." He then went away, and the following night his wife died very suddenly. This is how the assistant editor announced the circumstance: "Gone, but not Forgotten."—We are compelled, this morning, to perform a duty which is peculiarly painful to the able assistant editor who has been engaged on this paper at an enormous expense, in accordance with our determination to make the *Herald* a first class journal. Last night death unexpectedly snatched away from our domestic hearth (the best are advertised under the head of stoves and furnaces upon our first page), Mrs. Agatha P. Baros, wife of Rufus P. Burns, the gentlemanly editor of this *Herald*. (Terms, three dollars a year, invariably in advance.) A kind mother and an exemplary wife. (Office over Coleman's grocery, up two flights of stairs. Knock hard.) We shall miss thee, mother, we shall miss thee." (Job printing solicited.) Funeral at four and a half, from the house just across the street from the *Herald* office. Gone to be an angel now." (Advertisements inserted for ten cents a square.)

This story has this happy ending. The editor arrived that day at noon. Slowly and sadly he was observed to arm himself with a double-barreled fowling piece, into which he inserted about two pounds and a half of bullets. He marched over to the office followed by an immense crowd. The assistant editor was busy painting a big placard to be tacked on the hearse. It bore the legend "Buy your coffins of Simms, over the *Herald* office." The assistant cast his eyes around and perceived his chief. Care sat upon that wan cheek, and thunder clothed his brow. He levelled his gun. The assistant did not wait. With one wild and awful yell he jumped from the second story window, and struck out from the golden shores of the Pacific. It is believed he eventually swam over to China.

The recently reported earthquakes give to the theories of Prof. Mohr, of the University of Bonn, published a few years ago, a renewed interest. Unable to receive the popular theory that the earth was once a melted mass, because the silicates found in many of the olden rocks, if once melted, possessed certain chemical and physical properties which they never after lose, and which do not distinguish them in nature in their chrystaline form, he supposes that the interior of the earth is similar to its surface, except that it is more thoroughly saturated with water. The mountains, he says, are continually growing from beneath, the inorganic matter in the water slowly crystalizing and pushing the range upward. Sometimes, according to Professor Mohr, the water dissolves away the earth, making a cave miles, perhaps, in extent; the roof of this not being strong enough to uphold the mass of earth above, gives away, and this causes one of those great convulsions which we call earthquakes. The friction caused by this falling produces heat enough to melt the rocks and convert the water into steam, and this accounts for the volcanic phenomena which generally attends earthquakes. The Professor thinks that his theory is sustained by the fact that earthquakes move in concentric and ever increasing circles, and also because the water of the sea on such occasions has been seen to recede, flowing toward the center of the convulsion and then return, overflowing the highest marks.

It is now generally realized that the wool clip of the world is much short of what was at first anticipated. This state of the case has forced prices up much higher than any one had an idea of. Almost the whole clip is in the Eastern markets, and the looked-for decline has not yet been experienced. The advance is, therefore, confirmed.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

BY ATLANTIC CABLE.

French Affairs.

BRUSSELS, England, Sept. 9.—A letter dated August 25th, from the since dead Earl of Mayo, is published. He says the number of Commune refugees coming to London is increasing, while the means for supporting them are on the decrease. He appeals to Americans for assistance. He expresses contempt for Thiers, whom he declares is a cowardly and treacherous leader. He also declares his relations with foreign powers as he is unscrupulous in regard to his disarmed countrymen. He did not think Cluseret a traitor, but he lacked mettle, and did harm to the Commune.

Railways in Germany.

BERLIN, Sept. 9.—The consequences of the war have been so disastrous to railways, that for many now bids fair to out rival all countries in railway accidents. Railroad directors think it will be a long time before damages caused by the war can be repaired.

An English Journal's Opinions.

NEW YORK, Sept. 9.—The London *Telegraph*, of August 28th, severely criticises the manner in which trials of capital cases are conducted in the United States, and cites as illustrated by the cases of Laura D. Fair in San Francisco, and Foster in this city. It thinks there is no country in the world where women have been more sedulously taught that they are not amenable to the same laws as men. Liberated Fairs and respected Fosters may be expected in every American city so long as Americans allow so long periods between conviction and execution.

France and Russia.

LONDON, Sept. 9.—An interview between Thiers and Gortschakoff takes place at Lucerne, Switzerland.

Progress of the King of Spain.

MADRID, Sept. 9.—King Amadeus is enthusiastically received at all points on his journey through the Provinces.

Cholera Diminishing.

BERLIN, Sept 9.—Cholera in North Germany is diminishing.

EASTERN STATES.

Fire at St. Louis.

ST. LOUIS, Sept. 9.—A fire last night destroyed Nixon & Co's foundry, on Park Avenue; loss estimated at $100,000. Also, the malt house of Hope & Co., with a quantity of grain; loss estimated at $40,000. Also the bucket factory of Tull & Co., on Missouri Avenue; loss estimated at $8,000.

New York Abortionists.

NEW YORK, Sept. 9.—The allusion to the abortion business in Judge Bradford's charge the grand jury has been the means of directing attention to the New York statutes upon the subject of those crimes, and especially their effects upon newspapers in which advertisements of those practicing abortionists appear. The statute prohibits such advertisements. It is believed that steps will be taken to have them rigidly enforced.

The Saratoga Regatta.

SARATOGA, Sept. 9.—The regatta did not come off to-day owing to high wind prevailing. It is estimated that 20,000 persons were present. The four-oared race comes off at 1 o'clock Monday, and the single scull race at 4:40 P. M.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Sept. 10.—The award of premiums by the Mechanics' Fair last night has given considerable dissatisfaction to exhibitors, who claim that the judges were incompetent and did not examine the goods with care and judgment.

Lucy Ames, aged 19 years, a native of Washington Territory, weight 417 pounds, 4 feet 3 inches high, has been brought to this city for exhibition.

The billiard match last night between J. H. Watts and J. F. B. McCreesy, for the championship of the Pacific coast, was won by the latter by 107 points. The playing of both was extremely good.

Friends of Baldwin claim that he has been counted out and have demanded a recount of votes. There is not little doubt that he was beaten by the use of nitrate of silver, as his name is obliterated from a number of tickets.

Arrived—Bark *Queen Emma*, from Honolulu, sugar; *Francis Palmer*, from Seamen's Bagoon, with salt.

The *Moses Taylor*, from Honolulu, brings twenty-four passengers from the Islands and forty-five from Australia.

The Elections.

SAN RAFAEL, Sept. 10.—As near as can be ascertained the majorities in this (Marin) county are: Booth, 137; Pacheco, 227; Caughlin, 214. The county ticket majorities are from 100 to 200. The Republicans elected the entire county ticket except Clerk and Superintendent of Schools.

ARIZONA.

Miscellaneous News.

LOS ANGELES, Sept. 9.—The Prescott *Miner*, of Sept. 2d, says the chief of the surveying party, who is looking up a route for the Atlantic & Pacific Railroad through the northern portions of this Territory, came in from Camp Huapai on Thursday, the 21st of August. He finds a good route for the road this side of the San Francisco mountains. The region is well timbered. Capt. Kaufman and a company of the 8th Cavalry, form an escort to the party.

Gen. Crook, with two small companies of cavalry and a large pack train, has just arrived after a long scout in the Indian country and gone into camp near Fort Whipple. At an interview Thursday, August 31st, the General said that no order had been received up to that time to cease hostilities against the Indians. He had heard that a peace commission was coming, and could not say what his instructions might be. He has three strong parties in the field, and, after organizing two more, will again take command against the enemy. Extensive operations will soon be commenced.

The place to get Oysters in Good Style is at Kerr's.

REMARKABLE CURE OF MRS. HOOVER.

TUALATIN PLAINS, WASHINGTON Co., OREGON, July 22, 1871.

DR. A. M. LORTEA—I have been troubled with Rheumatism for the past twelve years; my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a large bony swelling grew out, so that I could not raise my hand to my head.

Since last spring I have been taking your "Dock Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and the bony growth has entirely disappeared and I use my limbs and am far better than I have been for years.

H. HOOVER.

Wife of Hon Jacob Hoover, ex-Treasurer of Washington county, Oregon. jy26d12p

PARRISH, ATKINSON & WOODWARD,

REAL ESTATE AGENTS,

Corner of Alder and Front Streets,

Have for Sale CITY PROPERTY, FARMS and UNIMPROVED LANDS in OREGON and WASHINGTON TERRITORY.

The following are some of the FARMS and LANDS:

20 acres 1¼ miles from Portland; house and orchard; $3,500.

238 acres 6 miles from Portland; 160 acres fenced; 25 in cultivation; orchard, house and barn; good running water; choice land; price, $5,000; $1,250 down, balance on time.

200 acres, 13 miles from Portland; all fenced; 70 acres in cultivation; $4,700.

875 acres 17 miles from Portland; 450 fenced; 225 in cultivation; orchard, frame house; three barns; will make three good farms; price, $18 50 per acre.

300 acres 14½ miles from Portland; 65 acres fenced; 40 acres in cultivation; good house, barn, orchard and water; choice land on Railroad; price, $6,250; $1,250 down; balance in 6 years.

652 acres 24 miles from Portland; 350 acres fenced; 200 acres in cultivation; house and barn; $17 50 per acre.

160 acres 3 miles north of Vancouver, with improvements—house, orchard, &c.—$1,500.

300 acres 6 miles north of Vancouver; 100 acres prairie; good improvements; $2,500.

GRAY'S MUSIC STORE.

THE BRANCH OF THE ABOVE HOUSE HAS BEEN established in Portland, Oregon, Seven Weeks today, during which time we have disposed of

EIGHTEEN PIANOS!

EIGHT OF THE WORLD RENOWNED

"BURDETT" ORGANS!

Besides FIVE PIANOS and TWO ORGANS, sold to arrive.

WHY?

Because the public have found out that they can buy a better instrument and save from $75 to $150 in buying for cash, or can buy on better terms (if they want to purchase on installments) than anywhere else on the Pacific Coast.

Advices received this afternoon of a fresh invoice to arrive per steamer *Idaho*.

Not a single Piano in the house at present except a

Counterfeit Steinway.

For Sale or to Rent G. L. DEPRANS, sl1dtf Gray's Music Store, Portland, Oregon.

TO HOUSE BUILDERS & PAINTERS

"AVERILL CHEMICAL PAINTS."

THESE PAINTS ARE SO WELL KNOWN throughout the Atlantic States and their reputation so abundantly established for

Beauty, Permanence and Economy

That we can confidently recommend and guarantee an entire satisfaction in their use.

THEIR COST is less than pure leads, and covers one-fifth more surface, making them the most economical Paints in the market.

THEIR DURABILITY is unquestioned. They dry hard, with a smooth and glossy surface and will not chalk, crack or peel off.

THEIR ADAPTABILITY.—They are already mixed and ready for use and require no oil, turpentine or dryer. Are sold of any desired shade, by the gallon only.

Testimonials:

Gen. James S. Negley, M. C., Pittsburg, Pa., writes Nov. 10, '70: "I have no hesitation in recommending the "Averill Chemical Paints" to those who regard economy and durability. It weathers our smoky atmosphere better than any Paints I have tested. The colors are rich and durable. Altogether I find them the CHEAPEST AND BEST."

"JACKSONVILLE, FLORIDA CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any LEAD AND OIL CAN EQUAL IT. "WM. P. DOCKRAY."

I have carefully compared the cost and merits of the Averill Paints with White Lead and Oil and find 99 cents per gallon in favor of the former.

COSMOPOLITAN HOTEL.

CHANGE OF PROPRIETORSHIP.

H. H. PEARSON,

Late of the Russ House,

HAVING BOUGHT THE INTEREST OF MESSRS. Tubbs & Patten, of the Cosmopolitan Hotel, has secured a lease for a term of years of this well known and elegantly furnished Hotel. His previous reputation assures its being kept in first class style, while in order to keep pace with the times he intends to make important reductions in the scale of charges. His intention is to make it a family and business house, while the large connection with the traveling public, warrants him in expecting a large amount of country Pacific Coast and Eastern patronage. The prices will range from two to three dollars a day for ordinary accommodations. Board by the week or month as per contract. The Table will be kept on the most liberal scale and many improvements introduced. The spacious reading room is the finest of its kind in the city, while the furniture and dining generally are superior to those of any hotel in San Francisco. The house will be thoroughly overhauled. Mr. PEARSON assumes proprietorship this day. A. [illegible] au22dtf2m2p

CITY.

QUESTIONS FOR Miss ANTHONY to Answer.—Mrs. A. J. Dunniway furnishes the following list of questions and objections which she says have been handed her for Miss Susan B. Anthony to answer this evening:

If women vote they must fight?

It will make discord in the family?

The delicate, refined, good women will not vote?

Who will take care of the babies?

The ballot will degrade woman?

Women does not want to vote?

The Bible is against it?

Miss Anthony desires the lawyers, judges and ministers who are opposed to the women to make known their objections on Monday evening, as it is positively her last lecture in Portland.

To the above, we wish to add this:

If women are recognized as the equals of men in respect of civil and political rights, as in matter of authority over children, property, and other domestic affairs, voting and holding office, immunities and liabilities under the law will not tend to multiply quarrels in families through conflicts in authority, and to render more frequent "dissolutions of partnerships" by divorce? Men and women to be considered as they are, and not as they ought to be.

And this: We object to the woman suffrage movement that its advocates propose to go for it with any political party which will give them the voting franchise, thus practically declaring the movement to be one of a single idea—to secure suffrage—without having the least regard to the good which may be in one party, and the evil which may be in another; thus ignoring principles which may be vital to the existence of the government.

A CONFIDENCE OPERATOR.—A scamp named P. Bagian—or known as such in this city—has been doing a few of the people here in the style of a first-class Jeremy Diddler. He came here in June, representing himself as the "Land Agent" of the Northern Pacific Railroad Company for Washington Territory, lived fast, made numerous acquaintances both among men and women, borrowed money, received and answered a great many letters on business connected with the agency, showed the letters confidentially to friends or people and borrowed money on them, or borrowed private checks or ladies, without paying them their salaries, and borrowed their money; won the love of the ladies and would have borrowed their money, no doubt, had it not been such an infernal one thing to do; accepted and honored invitations to dinner among people who always move in respectable where there is cash, and finally, after being thoroughly dined and wined, to-rated and done brown, he left for San Francisco on last business connected with his land agency, and has not been heard since, though he had assured his friends and admirers in affectionate and endearing terms that he would be back in June. It turns out just lately, that Bayliss, in addition to doing the acquaintance act of the confidence trickster, had the ingenious device of raising a thousand dollars by forging the name of a well-known citizen of this city to a check which he got cashed at the Bank of California. Some of his victims and the San Francisco police are now trying to find where Bayliss puts up.

A COMPLIMENT WE APPRECIATE.—We have received from Theo. S. Chase, Chairman of the Executive Committee, a complimentary invitation to attend the first annual Territorial Exposition and Agricultural Fair of Washington Territory, to open October 16th. We appreciate this courtesy because of the distance which the fair is from us, partly because it couldn't have been prompted by any expectation that the Exposition would more than get its money back through our gift of puffing. We are, however, regretful that we can't accept the invitation, especially as we find in an accompanying "small bill" that admission tickets from all parts of the United States will be amazing cheap. (If there is anything we go for, quick, it is a thing which is cheap.) And that "among acts of every description" to be permitted upon the "attending crowds, such as tournaments, gymnastic exercises, orations, etc." We should so like a gymnastic exercise, or an oration or something of that sort, easy, light and amusing.

ABRAHAM GONE UP THE SPOUT.—Who is this Prof. Chaney? The *Herald* prof.) to learn from him that he is able to prove by Abraham was only a planet and that Sarah, his wife, was only a nebulous mass. And so, a sad farewell to that grand

The Daily Oregonian.

MONDAY MORNING, SEPT. 11, 1871.

CITY.

QUESTIONS FOR MISS ANTHONY TO ANSWER.—Mrs. A. J. Dennimy furnishes the following list of questions and objections which she says have been handed her for Miss Susan B. Anthony to answer this evening:

If women vote they must fight?
It will make discord in the family?
The delicate, refined, good women will not vote?
Who will take care of the babies?
The ballot will degrade woman?
Woman does not want to vote?
The Bible is against it?

Miss Anthony desires the lawyers, judges and ministers who are opposed to the women to make known their objections on Monday evening, as it is positively her last lecture in Portland.

To the above, we wish to add this:

If women are recognized as the equals of men in respect of civil and political rights, as in the matter of authority over children, servants, property, and other domestic affairs, voting and holding office, immunities and liabilities under the law, will not it tend to multiply quarrels in families, through conflicts in authority, and to render more frequent "dissolutions of partnerships" by divorce? Men and women to be considered as they are, and not as they ought to be.

And this: We object to the woman suffrage movement that its advocates propose to go for and with any political party which will give them the voting franchise, thus practically declaring the movement to be one of a single idea—woman suffrage—without having the least regard to the good which may be in one party, and the evil which may be in another; thus ignoring principles which may be vital to the existence of the government.

A CONFIDENCE OPERATOR.—A man named H. P. Baylan—or known as such in this city—has been doing a few of the people here in the style of a first-class Jeremy Diddler. He came here last June, representing himself as the "Land Agent of the Northern Pacific Railroad Company for Washington Territory," lived fast, made numerous acquaintances both among men and women; bought and sold many; received and answered a great many letters on business connection with his agency; showed the letters confidentially to other people and borrowed more money; kept two or three private Secretaries, without paying them their salaries, and borrowed their money; made love to the ladies and would have borrowed their money, no doubt, had it not been such an indelicate thing to do; accepted and honored invitations to dinner among people who always see respectability where there is cash; and finally, after being thoroughly dined and wined, toasted and done brown, he left for San Francisco, on business connected with his land agency, and has not been found since, though he had assured his friends and admirers in affectionate and endearing terms that he would be back. It turns out, just lately, that Baylan, in addition to doing his acquaintances out of their money by the genteel dodges a genteel Jeremy, descended to the very ungenteel trick of raising a thousand dollars by forging the name of a well-known citizen of this city to a check which he got cashed at the Bank of California. Some of his victims and the San Francisco police are now trying to find where Baylan puts up.

"A COMPLIMENT WE APPRECIATE.—We have received from Theo. S. Chase, Chairman of the Executive Committee, a complimentary invitation to attend the first annual Industrial Exposition and Agricultural Fair of Kansas City, Missouri, to open October 16th. We appreciate this, partly because of the distance which the card has come, and partly because it could not have been prompted by any expectation that the Exposition would more than get its money back through our gift of puffing. We are, however, regretful that we can't accept the invitation, especially as we find in an accompanying "small bill" that "excursion tickets from all parts of the United States" will be amazing cheap; (if there is anything we go for, quick, it is a thing that's cheap;) and that "amusements of every description" are to be perpetrated upon the attending crowds, such as "tournaments, gymnastic exercises, orations, etc." We should so like a gymnastic exercise, or an oration or something of that sort, easy, light and amusing.

ABRAHAM GONE IN THE SPOUT.—Who is this Prof. Cheney? The *Herald* professes to learn from him that he is able to prove that Abraham was only a planet and that Sarah, his wife, was only a star—magnitude not mentioned. And so, a sad farewell to that grand old idea of Abraham the patriarch and founder of a great people, and all the beautiful story about his trials, temptations and triumphs—about his going up into the mountain to stay and cook his good little boy Isaac; about his division of the cows and goats with Lot and the turning of Lot's wife into a pillar of salt, and so on all the rest. What planet was Abraham, and has he ever been found? And what bright particular star" was the good wife Sarah? And what was Esau and Jacob and all the rest of those fellows who figured so conspicuously in the Bible story? These are questions which the world must now ask in breathless eagerness. Where's Cheney?

SHALL THE PARK BE SAVED.—We learn from a gentleman, who yesterday visited the Mountain Park, that the fire is close upon it, and threatening to go through it. If something be not done to protect it, there is great danger that much of the work thus far done this summer will go for nothing. Our informant says that there are many young trees which it would be very desirable to have saved, as they are ornamental. He saw nobody about to fight back the fire, and he spent a couple of hours, himself, at that exhilarating exercise. Would it not be worth while to take immediate steps to save the natural beauties of this park which has cost, so round a sum of money?

THE TELEGRAPHIC NEWS.—If there is any man now living who has the quiet spirit of quasdness in him, it is the man who fixes up the Portland press dispatches at San Francisco. Last evening he loaded the wires with a batch of local accidents and Police operations—such as the falling of a man from a balcony and the breaking of his leg; the arrest of a dirty fellow for kidnapping Polynesians, etc. Among all this trash there was one little item about the California election, which, it is fair to presume, got in through the inadvertence of the operator. We publish that lone item, having thrown most of the rest of the dispatch into the waste basket.

QUESTIONS TO MISS ANTHONY.—The following note from Miss Anthony explains itself:

To the Editor of the Oregonian:

SIR: Will you be so kind as to remind the good people of Portland of my request that every opponent of woman suffrage should give me a written statement of objection or failing to do that, present them verbally at the meeting tomorrow (Monday) night, that I may thus have opportunity to at least try to brush away every cobweb of prejudice from every brain present.

Yours, respectfully,
SUSAN B. ANTHONY.

DEATH OF AN OLD RESIDENT.—By telegraph the sad intelligence has reached us of the death of George Pratt, an old resident of this city. He died at Ogden, while on his homeward trip. He left this city about a year ago, for a trip to Ohio, one object being to benefit his health, and another to visit his aged parents, and brothers and sisters whom he had not seen for years. He leaves a wife in this city. His body will be forwarded to Portland by order of his wife, through Wells, Fargo & Co., for interment. Toledo, (Ohio,) papers please copy.

MUSIC.—Mr. De Prans, of Gray's music store, has laid upon our table a copy of the Vivian Medley, which contains selections of music from several of the favorite airs made popular by Vivian. It certainly has variety enough of time, movement, style, expression (here supply all the favorite pet names) to suit the most exacting musical critic—and that's all we know about it.

HOUSE DESTROYED BY FIRE.—On Saturday, the "Five Mile House," on the Canyon road, just over the summit of the mountain, caught fire from sparks falling on the roof from the burning timber, and was entirely consumed. The house belonged to Messrs. Sherlock & Bacon, and their loss is estimated at $1000.

TROTTING RACE.—The race on Saturday, between James Welch's "Highlander," and B. Backer's "Bosco," was witnessed by only a small gathering, on account of the failure of the parties to sufficiently advertise it. "Highlander" won the first three straight heats and the race, in 3:11, 3:09, and 3:11½.

THE PARK IN DANGER.—We hear that the fire on the mountain, west of the city, is near enough to the Mountain Park to endanger it, and that men were sent out last evening to prevent, if possible the spread of the fire in that direction.

MISS ANTHONY'S TALK TO WOMEN.

TO THE EDITOR OF THE OREGONIAN:

About two hundred ladies assembled at Oro Fino Hall on Saturday afternoon to hear Miss Anthony's lecture "to ladies only." As I did not detect any "reporters" in the hall I deem it my duty to tell our brothers something about the lecture, as I know they are half crazy with curiosity, not to say thirsty over it. The speaker talked eloquently, using chaste and dignified expressions which would have spoiled no gentlemen to hear. She urged upon women the necessity of marrying pure and noble men, showing very clearly how the iniquities of fathers are visited upon children. She was particularly severe upon those women who degrade themselves by marrying merely for a support; argued that the social evil was the legitimate result of women's pecuniary dependence, and that this dependence was the result of her irresponsible position. She said that legislation would not suppress the social evil; that license laws did not repress intemperance, neither could they efface prostitution from society. She argued that the ballot would give women the right to own her own person, and this would be her safeguard against the social evil, because no woman follows such a life from choice. A petition urging Congress to pass a declaratory act pronouncing woman voters under the Fourteenth and Fifteenth Amendments, received about one hundred signatures. A liberal collection was taken up for the lecturer, who says that the women thereby proved that the Portland ladies had money and were willing to use it.

MATED.

PERSONAL.

Mr. Felix Brunot, his wife and niece, and Mr. Thomas K. Oreo, his Private Secretary, arrived from Puget Sound last evening.

Hon. Jesse Applegate, of Yoncalla, is in the city.

Capt. John Smith, of Warm Springs Agency, passed through the city on Saturday on his way to Linn county.

AMUSEMENTS.

QUESTIONS AND ANSWERS.—Those who want a rich intellectual treat should not fail to hear Miss Anthony this evening at Oro Fino Hall. Many questions and objections have been submitted to her in writing. Some of the most important questions and objections, as yet submitted, will be found in another place. Miss Anthony desires lawyers, Judges and ministers who are opposed to the woman movement, to state their objections this evening, as it is positively her last appearance in Portland.

FIRES.—The fire on the other side of the Marquam mountain is still burning, though not now liable to do a great deal of damage. Another fire has broken out on the mountain about three miles west of the city, which we hear is raging with much fury. It is reasonable to presume that this, like the others, will inflict much damage upon the settlers in the vicinity. A facetious correspondent from the Marquam mountain neighborhood calls the fire and the exercises connected with it, "the 15th annual celebration of the Webfoot Olympic Games." The correspondence, however, is not exactly suitable for publication without re-vamping it, and we have not time for that.

A TERRIBLE FALL.—Yesterday Messrs. C. Bills, A. J. Marshall and C. Crich, were walking over the Fourth street railroad bridge, when Mr. Crich became dizzy, made a false step and fell through between the ties, at a point where the bridge was near seventy-five feet high. Fortunately, however, he did not fall to the ground. His arms on the left side were considerably hurt, and his left ear received a severe cut.

STEAMERS TO SAIL.—The steamship *Idaho* is advertised to sail from this port to San Francisco on Saturday the 16th inst.

The steamship *California*, now undergoing repairs, and refitting, will be dispatched under command of Capt. John Hayes, on the 23d, to Port Townsend, Seattle, Steilacoom, Olympia and Victoria.

PASSENGERS FOR THE NORTH.—The North Pacific Transportation Company's steamship *George S. Wright*, Hayes Commander, sailed Saturday evening for Puget Sound ports and Bellingham Bay, taking the following named passengers: J. Lovy, wife and child, R. Hastings, Thomas Nesbett, Israel Mitchell and wife, R. C. Shinn and wife, E. W. Blake and G. O. Warner.

OBJECTIONS ANSWERED.—Miss Susan B. Anthony will answer objections to woman suffrage, at Oro Fino Theater this evening. In such an undertaking she cannot but touch upon many interesting points, and the lecture ought, therefore, to be more interesting than usual. It is quite worth while to hear her talk whether one believes in her reasoning or not.

A BRICK FROM BOHEMIA.—We hear that Mr. Joseph Knott has received a gold brick—the first product of his quartz mill in the Bohemia mines. We have not had the pleasure of clapping our optics onto the precious little lump, but we are told it is a regular brick, and no mistake.

FOREMAN RESIGNED.—Charles W. Reynard, Foreman of Willamette Fire Company No. 1, has resigned, and his resignation has been accepted. Mr. Wm. Saunders, First Assistant, will fill the vacancy till an election shall be held.

THE "OREGONIAN" IN ALBANY.—Messrs. Blain, Young & Co., our agents at Albany, will receive orders for the delivery of the DAILY OREGONIAN in any part of that city.

SALE OF REAL ESTATE AT AUCTION.—On Saturday, Messrs. A. B. Richardson & Co. sold at auction, all of block 61, East Portland, for the sum of $1,455.

KATE.—The *Bedrock Democrat* boasts that there is not a single rat in Baker City. Nor in Portland, either. Here, they are all married and have large families.

INSANE.—A Mrs. Rounds, from Coos county, was brought down last Saturday and placed in the Insane Asylum, by the Sheriff of that county.

ANOTHER TESTIMONIAL.

From a Resident of Portland, Testifying to the Successful Treatment of Dr. Abora.

The undersigned hereby certifies that, for about four years he has been afflicted with a serious nervous affection of the eyes, causing almost total blindness. When consulting Dr. Abora, ten days ago, he could not distinguish a person across the room. The Doctor's treatment gave instant relief, and he has continued to improve until now he can see quite distinctly.

This being a nervous affection of the eyes—generally denominated Amaurosis—a most difficult affection to cure, is conclusive evidence that Dr. Abora possesses rare ability in the treatment of chronic and obstinate diseases, such as do not easily yield to the ordinary modes of treatment.

(Signed) L. CAMPBELL.
PORTLAND, Sept. 9, 1871.

Dr. Abora.

Dr. Abora has consented to prolong his professional visit to Portland until October 1st.

The Doctor's practice embraces the most modern and scientific treatment for Deafness, Discharges from the Ears, Noises in the Head, Catarrh, Ogorna, Offensive Breath, Bronchitis, Asthma, and Diseases of the Lungs, Heart, Stomach, Loins, Blood, etc.; also, all acute or chronic diseases of the Eyes.

Rooms at the St. Charles Hotel until October 1st.

To get a nice dish of Roast or Stewed Oysters, go to KEITH'S.

THE First Term of the next Collegiate Year of Pacific University commences on Wednesday the 6th inst.

S. H. MARSH, Pres't.

PRIVATE SCHOOL.—Mrs. Mary Simmons' Private School, corner Third and Main streets, is now open. Pupils will be taken during the term.

Vichy Waters are curative in Gravel, Stone, Vesical Catarrh, Affections of the Intestinal Tube, Liver, Spleen, Hepatic Colic, Pallodal Cachexia, Albuminoea, Chlorosis, etc., and most soothing and preventive in Gout, Rheumatism, Rhuumatic Gout, Diabetes, etc. For sale at O. H. Woodard & Co.'s Drug Store, Front Street, Portland.

The Remarkable Properties of Brown's Bronchial Troches have been thoroughly tested since first introduced. The demand for them is steadily increased, and purely upon their own merits, they have found favor with those who, from Pulmonary, Bronchial or Asthmatic complaints, require them. For Coughs and Colds they are efficacious.

WILLIAM DAVIDSON.

REAL ESTATE DEALER.

Influence of Temperature on Health.

In the fall the difference between the temperature of night and day is greater than at any other time of the year. In the early autumn the quicksilver sometimes rises as high during the day as the most torrid summer weather, while at night it often sinks to an almost wintry point. The human body not being made of steel or India rubber sensibly feels these tremendous changes. To fortify the system against them, a genuine tonic is required, and the public has long since discovered that among this description of medicines Hostetter's Stomach Bitters is infinitely the best. It gently quickens the circulation, regulates the bowels, tones the liver, braces the nerves, and thus puts the whole physique on its defense against the vicissitudes of temperature in our climate. Few, if any cases of epidemic fever are heard of in localities where it is in common use. As it becomes more and more widely known, and the demand for it increases, chills and fever and the bilious remittent seem to recede before it, and if ever it should come into universal use, these diseases would cease to be known as the scourges of our low-lying and marshy districts. That homely bit of proverbial philosophy that "prevention is better than cure," should be especially borne in mind in the autumn months; and indeed in all seasons, together with the fact, that among all the preventives of malarious disease, Hostetter's Stomach Bitters is the most safe and potent.

Be certain, however, to obtain the genuine article, as countless imitations of a meretricious character are abroad. See that the externals are all right, and remember that Hostetter's Stomach Bitters are sold in bottles only.

R. F. DANFORTH'S

PATENTED

PETROLEUM FLUID

Perfectly FREE from the Danger of Explosion.

THIS FLUID, AFTER YEARS OF PATIENT EXperiment, and thousands of dollars, has been produced by R. F. DANFORTH, of Cleveland, Ohio, and has been introduced with perfect success.

IT CANNOT BE EXPLODED in a lamp, or in any way, or by any known test.

IT IS FREE FROM GREASE AND FILTH, and will not injure the finest fabric.

IT IS FREE FROM ALL DISAGREEABLE ODOR, and in this respect is preferable for a night lamp.

It gives a purer, more brilliant, and at the same time softer light than any oil or fluid in use, and is fully equal to gas light.

IT DOES NOT SMOKE THE CHIMNEY in the least.

A gallon of it will burn as long with the same height of blaze as Kerosene.

It is more easily extinguished, when ignited, than Kerosene.

It is strictly pure, containing no mixtures or chemicals, burns in an ordinary Kerosene lamp, with simply changing the burner, with or without a chimney.

THIS FLUID is now on Exhibition at the

RAILROAD LANDS.

OFFICE OF LAND DEPARTMENT,

OREGON & CALIFORNIA R. R. CO.

AND

European and Oregon Land Co.,

PORTLAND, OREGON, August 1, 1871.

THE COMPANY IS NOW PREPARED TO EXTEND the pre-emption privilege of purchasing Railroad Lands in advance of the same being placed in market to all parties desirous of securing them on the following terms:

The applicant filing in this office a claim in the form prescribed, to-wit:

Pre-emption, date, No. ——

To the Land Agent of the European and Oregon Land Company:

Sir: You are hereby notified that I have settled upon and improved (description of land) in the county of State of Oregon, containing —— acres, and that I claim a pre-emption right to purchase said lands at the Company's valuation in accordance with the following resolution of the Directors of said Company, adopted on the twenty-sixth day of May, A. D. 1871, to the terms of which I hereby fully assent:

"Resolved, That the parties settling upon and improving any of the lands of the European and Oregon Land Company, before the same are opened for market, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment, as all other lands belonging to the Company, when brought into market; provided, such settlers shall file in the Land Office of said Company, written application, giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, notice thereof shall be sent by the Company's Land Agent, through the Postoffice, or otherwise, as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person."

(Name of applicant.

(Postoffice address.)

When the application is received, a certificate, signed by the Agent, obligating the Company to the terms, will be sent to the claimant in the following form:

PRE-EMPTION CERTIFICATE, NO. ——

This is to certify that —— of —— county, State of Oregon, Doe this day filed in this office a pre-emption claim to (description of Premises), and is hereby entitled to the first privilege of purchasing said land at the Company's valuation, (which is to be made without reference to improvements) when the same shall be placed in market, in accordance with a resolution of the Board of Directors of said Company, adopted May 26, A. D. 1871.

When the price of the above described land is fixed, notice thereof will be sent to the party to whom this Certificate is issued, and if the land is not purchased by the said party or the holder hereof within sixty days from the date of said notice, the Company will be at liberty to sell the land to any other person.

(Signed), ——

Land Agent of the E. & O. Land Co.

The lands will be appraised by a competent, disinterested party, under oath, at their actual present value—no fancy or prospective price on the basis of similar lands in the vicinity, and when appraisements are made they will be sold in quantity not exceeding one hundred and sixty acres to one person, payable in five equal annual instalments, with interest from date of contract, at ten per cent per annum, principal and interest payable in United States Legal Tender Notes. Warranty deeds given after United States Patent issues, upon payment in full.

Blank forms of application furnished upon request.

I. R. MOORE,
au12d3tnwzwlf Land Agent.

REAL ESTATE.

REAL ESTATE

Now is Your Time to Invest.

STITZEL & UPTON.

REAL ESTATE BROKERS,

Corner Front and Washington Streets,

PORTLAND, OREGON,

Agents for the Sale of Blocks and Lots in

HOLLADAY'S ADDITION

TO

East Portland!

TO OUR PATRONS AND THE PUBLIC GENerally desiring to make SAFE and RELIABLE investments in Real Property, we beg leave at this time to call your attention to this DESIRABLE TRACT, which has been subdivided into Blocks and Lots, and is now in the Market, to be sold in Alternate Lots and Blocks.

No one that has ever visited this body of land but what will say that it is the MOST ELIGIBLE for SUBURBAN RESIDENCES of any ever offered in this market, the land having a gradual slope from the River back to SEVENTEENTH STREET, there being scarcely any Block in the entire tract but what a

Fair View of the City of Portland and Willamette River

Can be had. Another advantage this Property will have for Residences: no high water will ever affect the drainage of the city.

The Oregon and California Railroad Company's New Ferry Boat is now making Regular Trips from the foot of F street, Couch's addition, to the foot of Oregon street, Holladay's Addition.

IMPROVEMENTS TO BE MADE.

Aside from sixty the Improvements now in contemplation by the Railroad Company, in the construction of Wharves, Warehouses and Machine Shops, quite a number of citizens will commence erecting fine Residences and Business Houses; also, Street improvements, under contract, by grading and planking Holladay Avenue its entire length, to connect with the Baldy Road. We can say that at least a Half Million Dollars will be expended in Permanent Improvements on this Addition the present season.

TERMS OF SALE—40 per cent. CASH down; deferred payments, six and twelve months, with interest at the rate of 10 per cent. per annum.

NO QUESTION AS TO TITLE

The Title to this property is undisputed, being a portion of the Donation Land Claim of Jacob Wheeler and wife. United States Patent issued, and conveyed by said Wheeler and Wife to Geo. W. Weidler.

Parties desiring to invest will find Maps and Plats of the property at our Office, or at the Office of Messrs. FERRY, BUSSELL & WOODWARD, and other LAND AGENCIES in the city.

STITZEL & UPTON

NEWSPAPERARCHIVE®
NEWSPAPERARCHIVE®

CURRENT NOTES.

M. Thiers, according to one of his newspaper organs, is anxious only to be known to history as the "Washington of France." We fear he is but a poor imitation.

The excitement in the mail over the Sunday liquor law having ended in smoke, the people of that city have found a grievance in the smoke from their chimneys, and are much exercised over the nuisance.

The Frankfort *Journal* states that in Ollenbach six families, consisting of twenty-five persons, have seceded from the Roman Catholic church on account of the conflict arising from the proclamation of the infallibility of the Pope.

The Canadians, if the story be true, have secured the wonder of the world—a large grave, containing the skeletons of 600 giants. Some of the defunct measure over nine feet, and a number of their head pipes, in their mouths. It is claimed by our Canadian exchanges that the site of a lost city has been discovered, and these were some of the citizens thereof.

In Newton, Long Island, a few days ago, a prisoner who was fined for some offense, asked leave to go home in another township, to get the money. The Court decided that an officer should accompany him to this end. Smelling a job two officers immediately volunteered and each seized the man. As usual ensued, during which revolvers were fired in the court room, in the smoke of which the prisoner disappeared.—Lively Newton!

Dr. Dollinger.

SIGNIFICANCE OF THE ELECTION AT MUNICH.

[From the Cologne Gazette.]

The election of Dr. Dollinger to the post of rector is an event of great importance. By taking this step the University of Munich has placed itself in the foremost ranks of the great ecclesiastical conflict of our age, and has gained a position which Bonn or Berlin cannot claim. The States to which the Universities of Northern Germany belong, the way in which they were founded, and their confessional character, render them the representatives of Protestantism; Munich, on the other hand, is the oldest German University which has assumed the character of a school for all branches of science, and is therefore very likely to be considered the stronghold of the strictly Catholic party. Now, fifty-four Professors out of the sixty-three who were entitled to a vote elected Dr. Von Dollinger, who is excommunicated, and more than this, the leading old Catholics, as next year's Rector of the University. By so doing they have in the most distinct manner, confirmed the protest made a year ago by forty-four Professors and teachers of the University against the claims of the Vatican Council to be considered ecumenical, and the binding character of its decrees with respect to the infallibility of the Pope. The fact that of late years the University of Munich has taken but a small part in politics, and that the political views of the majority of its teachers were till lately exceedingly moderate, clearly proves how false is the assertion of the Ultramontanes that the resistance to the new dogma is the work of a political party. The Ministry of State and the Royal Patron of the University have now to decide whether they will confirm it, or not. In whom honor is beyond doubt, Lerchenfeld. The election is therefore important as the anniversary of the foundation of the Ingolstadt-Landshut-Munich University will be celebrated during the next fortnight, and Dr. Von Dollinger would on that occasion worthily represent the dignity of Catholic science and the respect which is its due.

A Democratic Statement of Affairs in New York City.

From the New York Citizen and Round Table, Aug. 23.

By the showing of our worthy Controller, it seems clear to an ordinary mind, not much versed in complicated figures, that the admitted debt of our city represented by some sort of public securities, is fully one hundred millions. The citizens are not very particular whether this is called temporary debt, or funded or accumulated debt, so long as they have to pay it; for by whichever name it goes it will be equally a levy. The Controller may select a special portion of the bonds, and announce that they amount to $50,000,000 only; but the whole together of municipal indebtedness is $100,000,000 over and above the amount in the sinking fund. To prove this requires merely a perusal of the official figures, and cannot possibly be denied; and for this liability the thousand millions of the lands, goods and chattels of our citizens is morally and legally mortgaged; or, in other words, two first onetenth of all we possess for past city improvements and expenses.

Nor is this all. Apart from accumulated debt and bounty debt, and Central Park debt, and County Court House debt, over and above all funded, vested, or recognized liabilities of all kinds, is a large quantity of floating indebtedness that is not in shape to go upon the Controller's books, but which is perfectly valid and binding. There are the back claims of Jones, the printer; not Mr George Jones of the *Times*, but the Jones who used to do the work and queer work some of it was for the Supervisors; of O'Brien, the ex-Sheriff of the New York *Transcript*, which we believe have not all been settled; and, of course, of Garvey, Ingersoll and Keyser, who have a perennial claim that keeps growing like a brook, with no beginning and no reach. Take these items of debt and they cannot come to less than $25,000,000 more, or we are much mistaken; and as they are just as valid and binding as the admitted liabilities, we will have to add another quarter to the total amount, so that the city debt really to-day cannot be less than $125,000,000. A pretty respectable sum for a small place.

SATURDAY EVENING, September 9, 1871.

Gold in New York, 114¾.

Currency: buying, 97½; selling, 98¾.

The following is the United States Financial Statement on August 26, 1871: The United States Treasurer held on Saturday as currently for circulating notes, $363,408,-600, as security for deposits of public money, $16,691,500; total securities held, $379,182,100. Total amount of matured notes burned, $31,112,914. Total amount issued therefor, $30,777,903. Balance due for matured notes, $335,011. Bank circulation outstanding at this date, $321,973,830. National gold bank circulation issued to date, $410,000. The total receipts of internal revenue for the fiscal year ending August 27th, 1871, were, $28,900,-243 24.

The following were the Treasury balances, August 27, 1871:

Coin	$89,664,000 00
Certificates	17,961,000 00
Currency	6,330,000 00
Total	$109,955,000 00

The steamer *John L. Stephens* did not leave until this morning. She has on near 600 tons of produce.

Steamer *George S. Wright* sailed this evening with full cargo assorted merchandise for Puget Sound ports.

Steamer *Idaho* sails from San Francisco Sunday morning, and will be due here on Thursday. She leaves here on return trip Saturday, Sept. 16th.

The steamer *California*, will take her place on the Puget Sound route the 23d of this month.

The New York *Bulletin* of August 28th gives the following as the prospective Grain wants of Europe:

According to late private advices from the United Kingdom, the crop of grain is about 100,000,000 bushels, an average growth, and that section of the world will have to import from 68,000,000 to 70,000,000 bushels of foreign cereals. The estimated requirements of France are placed at 40,000,000 quarters, or 32,000,000 bushels, leaving 102,000,000 bushels of the 120,000,000 bushels, leaving 18,000,000 bushels for imports of other countries, including Belgium. In this calculation the surplus of 6 of the United States is all taken on European account, while a very considerable portion of it is usually taken by the Provinces, the West Indies, South America, China and East India.

We take the following from the *Mark Lane Express* of August 14th:

The past week brought a continuance of really splendid Summer weather, of immense consequence to the country. Wheat, however, is certainly much behind all Spring Corn. In some deep loams, well cultivated and situated, there may be an average crop, with fair weight additionally. But other plots are really threshed have fallen materially short of expectation; while those knocked down and twisted by the late storms, must be inferior and deficient. This impression and a further rise in France have contributed to keep prices pretty much as they were last week, though occasionally rather lower in the afternoon, as in London. The fact is, the supplies at the several French provincial markets have been so scanty, and millers generally so low in stock, that there has been a further rise, varying from 1s to 2s per quarter, notwithstanding the finest nearship weather. Such an advance at such a time and during such a monetary crisis speaks volumes, and though we may look as French farmers thrash out freely there will be some temporary reduction in the rates, the character of the season is as omin—ly bad, that Indmense wants must appear on time works on, and we apprehend the full range of prices here or in any part of Europe or America seems impossible. Hungary is also rather scarce, with but a doubtful crop. Belgium has been harboring as the near neighbor of France, has Hamburg, and the best Wheat at Danzig instead of falling can scarcely be had at 62s, cost, freight and insurance. Indeed, French orders have begun to influence our prices, and exceed those of our millers. The arrivals of the past week were 21 cargoes, of which 13 were Wheat. Business was reported as follows: Wheat, 34 cargoes in all; viz., Ghirka, 42s 6d@43s; Middarian, 41s 6d; Winter Red, 41s 6d; White, 44s 3d; American Red, 50s 6d@52s; California, 56s; Chilian, 55s 6d@56s 6d.

The following is by telegraph from Washington to San Francisco:

An official report concerning the Tea trade from the United States Consul at Amoy, China, says the market opened on the 23d December at Amoy, and the crop of 1871-2, of Oolong, is fully up to that of last season in quality, and not likely to fall short in quantity. The market for the United States opened at prices certainly one fourth above the opening rates last year, and in three days the purchases amounted to 10,000 packages the first arrivals part of the crop only. In many cases having come down from the country. Prices are as irregular it is difficult to give exact quotations Teas growing from one upward are eagerly bought as they arrive.

Mr. Young of the Statistical Bureau gives the following estimates of the sales of Liquors in the United States for the fiscal year ending June 30, 1871: Whisky, 60,000,000 gallons at $4, retail, $300,000,000; imported Spirits, 2,500,000 gallons at $10 per gallon, retail, $25,000,000; imported Gin, 10,700,000 gallons at $3 per gallon, retail, $53,500,000; Ale, Porter and Beer, 6,500,000 bbls at $20 per bbl, retail, $130,000,000; native Brandies, Wines, Cordials, &c., 31,500,000, total value, $500,000,000. There were 140,000 retail Liquor dealers who paid a tax of $25, $3,500,000.

The following is the manifest of the bark *Barracouta*, from England, due at this port the 1st of November: 276 cs beer, 127 cs whisky, 20 bales dundee, 5 bales twine, 8 qr casks and 2 octaves whisky, 4,150 bags common salt, 3,722 bleached bags stoved salt, 100 cs bottled salt, 5 cs mustard, 20 drums caustic soda, 20 bales and 97 cs merchandise, 1 cs effects, 62 cs wine, 2 cs pianos, 4 crates iron buckets, 16 bbls and 5 cs hollow ware, 4 cs cs hardware, 60 qr cks Vinegar, 2 cs table Salts, 10 qr cks and 120 cs brandy, 13 qr cks Port Wine, 4 cs varnish, 5 qr cks rum, 2 cks chains, 2 cks rings, 755 box tin plates, 10 cs iron, 20 bdles iron, 1 piece chain, 28 cks glassware, 135 tons cannel coal, 40 crates and 1 cks samples earthenware, 100 tons pig iron, 60 bdls sheet iron, 9 cks zinc, 20 bbls whiting, 150 bbls cement, 100 box bath bricks, 5,800 bricks, 90 bdls slack. The vessel was consigned to Messrs. Janion & Rhodes and the goods to Janion & Rhodes, Corbett, Failing & Co. and S. Sherlock & Co.

Shipping Report.

WHEAT—Another advance in Liverpool of 2d per cental, quiet and steadier to-day, and closing at 2d per cental, raises the market in San Francisco to make another jump of from 15 to 20 cents per cental. Unless they possess new different from us, there is altogether out of proportion. Buyers are in no great desire to purchase. Shippers are limited in prices which will not allow of their paying for shipping to Liverpool more than has been ruling for the past week. But some, to fill orders for San Francisco, may be able to pay more for straight lots of extra choice. Owing to the fine weather, farmers are to work late this afternoon prices, under advices received, were not regulated, so we are unable to quote them for this issue. One direction's state that speculators are the only buyers in the California market.

FLOUR—Prices very firm, with an active demand for home consumption and export. The steamer *John L. Stephens* carried, of 5,000 bbls, extra and superfine. We quote market extra, $7 per bbl; superfine, $6@$6 75 per bbl.

AGRICULTURAL IMPLEMENTS—Gay's plow, No. 1 patent, 100; Sulky, $90; Eureka, $60. Buckeye Grain Drill, 6 hoe, $160; 12 hoe, $125. Plows, Collins cast steel, $20; Molinecast steel, $15; Moline Shapbar, $45; Moline Clipper, $19.50; Peoria Clipper, $17.50; Boston Clipper, $14.50. Fisher Harvesting Machine, $350@; Hutchin's $270 50; Hickox, $60. Grant's Fanning Mills, $30@37 50. Mitchell's Wagon, complete, $165@166.

SUGAR—Hawaiian ex *Hattie C. Bent*, continues to meet with no notice and no great enquiry rates. The *St. Ives* was expected to have quick dispatch for this port with cargo of Sugars.

HAY—The receipts are light of both loose and bale. Choice lots would meet with a ready market at an advance on ruling rates.

EGGS—We note sales in lots of 5,000 dozen 28 cents.

COFFEE—The demand has been active at full rates for most of the month. The market is very firm at previous quotations.

TALLOW—We note sales of choice at 9@9½c per lb. Extra choice in straight lots command 9½c per lb.

BRAN AND MIDDLINGS—We note sales in lots of former at $25 50 per ton; latter at $45 per ton, with a very firm market.

NAILS—A New York dispatch of Sept 8th, says: "An important and general meeting of nail and spike manufacturers, held in Philadelphia, unanimously adopted an advance on the wholesale price of all sizes of American nails and spikes 25 per cent per 100 lbs. On sales of 500 to 3,000 kegs a remission of 10 per cent. is to be made, and on parcels of 1,000 kegs, 10 per cent." This will necessitate a corresponding advance here.

Markets.

[BY TELEGRAPH.]

SAN FRANCISCO, Sept. 9.—Flour—Market very firm; superfine, $5 75@7 50; extra, $7 25@7 50.

Wheat—Market excited. Sales of 600 sks good at $2 60; 600 tons milling, $2 65; 200 tons white Oregon, to arrive, $2 75; market closes firm at $2 60@2 75.

Barley—Buy feed $1 80; bright buy $1 85; 500 sks coast $1 85; buy $1 85@1 95.

Oats—Sales, $1 90@1 95; range of market $1 80@1 90 choice $2.

Hay—Five cargoes inferior to fair $16@20, and also cargo superior, to arrive, private. Choice wheat $20@22.

Potatoes—50@60c, export $2@2 25.

On the reception of advance in wheat to 12s 4d in Liverpool that article jumped $2 60@2 62½ to-day to $2 75, speculators, however, being the only purchasers.

Shipping Intelligence.

[BY TELEGRAPH.]

SAN FRANCISCO, Sept. 7.—Arrived—Schr *Amanda*, from Port Ludlow; str *Idaho*, from Portland; ship *River Loon*, from Newcastle
